Calsoft Enterprise Solutions (CalsoftES) is one of the fastest growing Systems Integrators in the world. We know that our customers want business solutions, not technology and that is why we place understanding our customers business at the heart of solution delivery.

CalsoftES' Microsoft Solutions is an extension of that promise. As a global, **Gold Certified Microsoft Partner**, CalsoftES helps organizations improve enterprise-wide collaboration thereby lowering costs, improve productivity, deliver on superior customer relationships, exploit new channels such as mobile and enable people to innovate for growth. As part of its Gold Certification, Calsoft is certified in four competencies – Business Intelligence, Microsoft Business Solution, SOA & Business Process and ISV Software Solutions. This leads to increased agility and responsiveness, thus helping our customers achieve business excellence and growth. 'Experience' is our differentiator. With over 500 person years of Business Consulting and implementation experience across Microsoft products, CalsoftES has a successful track record of having delivered over 60 implementations for over 40 global customers.

Microsoft Business Solutions

Our expertise in consulting and implementation of Microsoft Business solutions enables customers to streamline their business processes, enhanced collaboration and manage and grow customers and drive better decision making across the enterprise.

Microsoft Dynamics GP

Microsoft Dynamics GP automates your business-critical operations and adapts easily to meet your business and industry specific needs connecting information and processes so that your people can work as a team to take the business forward.

CalsoftES offers solutions on modules such as Financials, Supply Chain, Manufacturing, HRMS, Projects, Field Service, Analytics, E-commerce, and Customization & Integration Tools as business management solutions addressing the needs of small businesses to large corporations.

Microsoft Dynamics NAV

Microsoft Dynamics NAV, is an integrated, adaptable business management solution that automates and streamlines business processes, delivers robust reporting and business intelligence, and connects employees, customers, and partners across a global marketplace. Designed specifically for mid-sized organizations, it is flexible and easy to use and offers an intuitive user experience helping people to

fuel business productivity and enabling people to make confident decisions and respond quickly to new marketplace opportunities.

CalsoftES implements Navision on the financial management, supply chain management, CRM, e-business, manufacturing & HRMS modules. CalsoftES provides a single fully integrated solution that connects everyone in your organization to your customers, suppliers, and partners through the Internet any time, anywhere.

Microsoft Dynamics AX

Axapta is a multilingual, multi-currency enterprise resource planning (ERP) solution. It is designed is for mid-size and large organizations. It supports your entire business and offers comprehensive functionality that spans manufacturing, distribution, supply chain management, project management, financial management, customer relationship management, human resource management and business analysis.

CalsoftES offers implementation and customization services across all the Microsoft Dynamics Axapta applications. Our expertise spans across functional areas that include -Financial, Trade, Logistics, Production, Project, CRM, HR Management, and Knowledge Management.

Microsoft Dynamics CRM

Built on the Microsoft .NET Framework and designed for low TCO, Microsoft CRM transforms the way your company improves sales and service profitability, creating an interconnected workplace that extends across business systems and Web services. Microsoft CRM empowers managers, salespeople, and customer service employees with the information they need to focus on selling effectively and delivering quality service that helps to build profitable customer relationships.

CalsoftES can provide the thought leadership and guidance to help you implement Microsoft Dynamics CRM 4.0 giving your employees quick, relevant access to reporting and data so they can make faster, better-informed decisions.

Microsoft Office PerformancePoint Server 2007

CalsoftES delivers powerful BI reporting solutions that make information available and easy to use, on Microsoft Office PerformancePoint Server 2007. CalsoftES helps create, manage and deliver reports both as traditional paper reports and online Web-based reports with this tool. We also have expertise with ProClarity which is the foundation for the analytic capabilities in Microsoft Office PerformancePoint Server 2007 which helps to identify trends, explore data, and pinpoint what is driving corporate performance.

Microsoft Technology Solutions

The key to all this is our underlying ability to integrate Microsoft technology with other systems. Our development capability enables us to bring this all together based on the following technology and products.

Microsoft .NET Framework

Calsoft ES' .NET services includes Custom Software application development, .net Application development, windows application development using C# , ASP .net and VB .NET. Calsoft ES has invested in training resources and developing best practices for application development using Microsoft's .NET architecture. The Microsoft Solutions team comprising a large number of Microsoft certified professionals leverages this expertise to enable rapid application development to provide solutions to business problems.

Microsoft Visual Studio

With Visual Studio and the Microsoft .NET Framework, Calsoft provides Rapid Application Development (RAD) programming capabilities that help you create Office-based solutions to suit a variety of business needs.

Microsoft SQL Server

Calsoft ES has delivered on many project implementations with SQL Server to various clients across the globe and is adept at providing Data Warehousing, BI and Application Development with SQL Server.

Microsoft Office SharePoint Server 2007

Microsoft Office SharePoint Server 2007 is an integrated suite of server capabilities that can help improve organizational effectiveness by providing comprehensive content management and enterprise search, accelerating shared business processes, and facilitating information-sharing across boundaries for better business insight.

CalsoftES has developed a tried and tested methodology that rapidly helps you reap the business benefits you seek from your SharePoint solution. This includes business consulting via our executive briefing sessions to building, testing, deploying the solution followed by Solution development, User training and Application management outsourcing

Microsoft Commerce Server

Calsoft ES specializes in using the Microsoft technology and agile development methods to deliver e-commerce solutions rapidly. We have experts in implementing Commerce Server in short period of time which enables our customers to reach out to the customers at the shortest possible time.
